OVERVIEW

Swiftships' 205 ft. Fast Supply Vessel is an all-welded aluminum vessel that is ABS HSC AMS DPS2 classed. This vessel is designed to transport offshore support personnel, deck cargo, and below deck cargo to offshore facilities. Its lightweight aluminum superstructure coupled with Swiftships' proprietary design allows for high speed performance and delivery capabilities. Specifications can be modified in accordance to the operator's preferences and needs.

MACHINERY

- **Main Engine:** Four (4) CAT 3512 @ 2250 BHP each
- **Reduction Gears:** Four (4) Twin Disk MGX 61000
- **Generator Sets:** Two (2) CAT 250 KW
- **Bow Thrusters:** Two (2) 200 HP

ACCOMMODATIONS

- Cabins/Berths: Five (5) Doubles
- Dining: Eight (8)
- Passenger Seats: 70 in total

ELECTRONICS

- Radar: (2) Furuno FR-8122
- GPS: Furuno GP-150 SEA
- SSB: 245
- VHF: ICOM M504-11
- AIS: Furuno FA-150
- Depth Sounder: Furuno FE-700
- Dynamic Positioning: BEIER IVCS 2000 DP2

OTHER SPECS

- Ship's Fuel: 8,400 gal. (31,797 L)
- Transferable Fuel: 51,240 gal. (193,964 L)
- Potable Water: 1,500 gal. (5678.11 L)
- Fresh Water: 42,750 gal. (161,826 L)
- Gross Tonnage: 350 LT

Commercial platform conversion to autonomous

EXPANDED CAPABILITIES FOR AUTONOMY, UNMANNED OR REMOTE CONTROL

Swiftships has leveraged its skills and technologies to convert its 205 ft. FSV into a multi-mission platform. When outfitted with missile defense, mission modules, UUV & UAV's spoke or launching & retrieval capabilities, this relatively medium size vessel can accomplish many missions simultaneously, such as surface & underwater warfare.
